REMINDERS!

Before Using a Respirator:

- ✓ Ensure respirator is clean
- ✓ Insert the proper filter
- ✓ Inspect all respirator components for damages (On table above: ✓ if OK, ✗ if defective or repairs are needed and indicate what actions were taken to correct)
- ✓ Do a user seal check
- Do not use a respirator with worn or damaged parts
- Report defective or worn parts to your supervisor
- Return the **Respirator Activity Log** to your supervisor, once a page is completed or when requested by your supervisor
