	CO-OP PLACEMENT OR APPLIED INDUSTRY PROJECT	
QEMG 3002 Professional Certification Preparation	QEMG 3000 Co-op Work Placement	QEMG 3001 Applied Industry Project - Quality Engineering Management
You will work toward certification in the most in-demand proprietary certifications to enhance your employability attributes upon graduation.	Co-op is a work integrated experience built into post-secondary programs to allow you to get hands on experience in your field of study while applying your academic studies. The integration of formal learning practices with developmental learning opportunities helps to enhance and consolidate the knowledge, skills, abilities and attitudes of emerging professionals. This is also an opportunity to interact and demonstrate your skills to potential employers.	This option is only available under extenuating circumstances and students will need the approval of the Academic Vice-President. The integration of formal learning practices with developmental learning opportunities helps to enhance and consolidate the knowledge, skills, abilities and attitudes of emerging professionals. The industry project will be performed on the College campus under the guidance of the College faculty.
