OR

WINTER 2025 SEMESTER 4 (JANUARY - APRIL) - 1 COURSE

APPLIED INDUSTRY PROJECT

TOTAL HOURS: 420

CO-OP PLACEMENT

WKPL 2058 CSDD Co-op

CSDD 3000 Applied Industry Project: CSDD

Co-op is a work integrated experience built into post-secondary programs to allow you to get hands on experience in your field of study while applying your academic studies. The integration of formal learning practices with developmental learning opportunities helps to enhance and consolidate the knowledge, skills, abilities and attitudes of emerging professionals. This is also an opportunity to interact and demonstrate your skills to potential employers.

This option is only available under extenuating circumstances and students will need the approval of the Academic Vice-President.

The integration of formal learning practices with developmental learning opportunities helps to enhance and consolidate the knowledge, skills, abilities and attitudes of emerging professionals. The industry project will be performed on the College campus under the guidance of the College faculty.
