Professional Development Opportunities

Preamble

Loyalist College encourages learning opportunities that contribute to the quality of teaching and learning.

Every effort will be made to utilize professional development funds in a fair and equitable way, recognizing that professional development activities that support the college's strategic plan will be given first priority.

Policy

Faculty members have the right to engage in professional development as outlined in the current collective agreement contract.

Professional development activities during the academic year must be directly related to the assigned program area of the faculty making the request.

Loyalist College will support faculty, when appropriate, with the time and/or financial support needed to participate in professional development activities.

Procedure

Professional Development during a teaching period covered by the Standard Workload Form

Faculty will be granted permission to participate in professional development activities during the academic period, provided that there is minimal disruption to the learners and class schedule. If any adjustment to the schedule is required, the specifics need to be approved by the dean a minimum of three weeks prior to the proposed activity.

Professional Development during a non-teaching period

Faculty will be granted permission to participate in professional development activities during the non-teaching period, provided that the timing does not interfere with program activities that are deemed essential to the program development and/or renewal.

General Principles

1. The financial support for the professional development activity depends on the relationship of the activity to the faculty's work and whether the faculty member is able to access the central PD funds. If the amount exceeds the amount allotted to each faculty member, then the dean can authorize financial support from the program budget.
2. Faculty members must complete the travel request form and gain approval from the dean.
3. PD requests are then submitted to the office of teaching and learning for approval.
4. The budget holder will assign the Central PD Code (4320) to the amount approved on the expense claim.
5. If the PD activity is not completed an email must be sent to the office of the Vice-President Academic and the office of teaching and learning informing them of the change to ensure

the central list is up-to-date.

Travel Policy

1. Costs associated with professional development activities will be governed by the College policy on travel.
2. Out-of-province/country requires the prior approval of the Vice-President, Academic for Canada, continental USA and Mexico. The President's signature is required for all other out of country travel and the President's office must receive documents and requests at least three weeks in advance of the anticipated travel date.
